For the American Lutheran. Theological Education.

EXTRACTS FROM THE SYNODICAL SERMON F REV. A. R. HOWBERT, DELIVERED BE FORE THE WITTENBERG SYNOD AT ITS RE-CENT CONVENTION AT VAN WERT, OHIO.

The text was, "Preach the Word," and after an appropriate introduction and in the progress of the discussion, the speaker proceed-

3. A minister to be eminently successful in his work, must have a thorough Theological education and training.

I will not say a word to disparage an Academic course of education. But whilst I most earnestly advocate a thorough Collegiate course as preparatory, I do assert that to a minister of the gospel a thorough theological course is of paramount and overwhelming im-

And I do wish to contribute my influence effectually to remove the impression that I fear prevails in some sections of the church that a thorough collegiate education supercedes the necessity of a theological course, or at least that a more smattering of theology is sufficient where the full collegiate education has been enjoyed. I repeat, let it not for one moment be supposed that a literary and scientific education is of little importance to the Gospel ministry. It is doubtless a great help to the securing of a theological education. It certainly is a great advantage for a preacher to have access to God's great store-house, and to know just how to unlock and use the materials out of every part of the great storehouse of nature for illustration and argument.

that theological science is the chief science. ondary in their nature. The fact that this is impossible for us to understand many things well understood by those who were present, so, will not be disputed by any, when we conin the Bible. They were well acquainted and especially by those who led in prayer. sider that it holds the same relation to the with church history, Bible critisism, and had

\* \* (Here the speaker referrtrue to God and our fellowmen." "The ed to the voluntary testimany and confessions clock has struck two, two ways are appointed of many eminent men bearing upon the truth for man, Lord help us to walk in the right of the proposition), and said, If the study of way." These customs certainly do no harm theology was valued so highly by such learned and good men, surely those whose business it is to teach it, ought to regard it as a most important science. Just as medicine is the chief science to the physician, and law to the jurist, so theological science should be the chief science to the minister of reconciliation. Theological science in its range of truth, is by far the widest, by far the most profound, im-

> (b). The object of theological truth makes it the most important science to the preacher. The work of the christian minister is the noblest in its character, the highest in its ob-Well may he inquire with deepest emotion, "Who is sufficient for these things?

multiform as now. In our country, men of all religious views have the widest range to think, and teach, and write, and publish what they please. Hence the prolific growth of error on our soil. Therefore the preacher should be more than a mere novice-rooted and grounded in the truth-"a wise master builder who need not be ashamed, rightly dividing the word of truth." \*

The theological education of the prophets under the old dispensation was most thorough and they were most carefully and critically instructed in Biblical literature. Thelogical Schools were established at Jericho, at Bethel, at Gilgal, and at Naioth.

(e). But it seems to me that the example of Christ is the highest and best evidence in favor of a thorough theological training that ve can possibly present.

As soon as he was ordained a teacher and priest in Israel by John the Baptist, he se ected twelve men from among his friends these men were his theological students and not chosen as his more attendants. They were with Christ that he might thoroughly instruct them and that they might pattern after him. His ability, his resource, the embodiment of wisdom itself made him a superior Teacher.

The relation of Teacher and students existed for the space of three years, except a very short vacation of a few weeks.

They understood the language in which (a). Whilst all this is true, yet we claim the Scriptures were originally written. Furthermore, they were familiar with Jewish an-All other sciences are inferior to it and section to it and sectio

MT. HOLLY SPRINGS :- Rev. C. Lepley has taken charge of a mission field in and around the above named place. It is not very far from Carlisle, Pa. His address is Mt. Holly Springs, Cumberland Co. Pa.

DOES THE END JUSTIFY THE MEANS?-One of our correspondents in this weeks's paper expresses himself as follows: "Now my conviction is, and I so told the doctor. does not justify the means, and the inspired good may come.

WHAT THE PAPERS THINK .- A warm friend of our paper writes as follows:

I am once more safe at home and sit dow to write you this private letter, that I may tell you what the people think of the AMER. ICAN LUTHERAN. That our little paper, as some call the A. L. is very cordially hated, you need not doubt, but that most people who give expression to this feeling are the hangers on of would be great men, I will do myself the pleasure of telling you. Your friends like the Am. LUTHERAN and wish it success. I heard this expression more than once :-"Give us a clear paper, with well selected

We publish in another column the Time-Table of the Cumberland Valley Rail Road an accommodation we are sure to a large num ber of our readers who may have occasion to travel through the beautiful Cumberland

and well written original matter, and the AM.

LUTHERAN is a success beyond a doubt.

Although the C. V. R. R. is probably the shortest line connecting at Harrisburg with the great Pennsylvania Central, it is not the least prosperous. As we have noticed fre quently that all its trains arrive and depart heavily laden Col. O. N. Lull the efficcient his dispositon to accomodate the public at all times, has made the Cumberland Valley the safest and most favorite line for all who desire a safe pleasure excursion, or have business grandeur or sublimity of scenery. And our man in every sense of the word, affable, polite and always ready to accommodate the traveling, public.

But a few gray he has tumbled into another kind of a "pit-simply this, does dancing, by its physical and hairs began to make their appearance upon fall" himself. his head, and this was an objection against him. The young people wanted a younger

This is certainly wrong. As our correspondent remarks, we cannot blame the young ministers for accepting of the best charges in the church and coveting fields of the most extensive usefulness, but it is wrong to reject a man merely on account of his age, provided he is still able to preach efficiently and attend to his pastoral duties. An old wan may have lost some of the fire and impetuosity of his youth, but in the place of that he now has more experience, and knowledge and prudence, and will be more apt to build a congregation up sately and permaneutly than in his younger days. Even our young ministers themselves should discourage this ungrateful disposition in the church, for they also exthem."

GREAT MEDICINE OF THE WORLD. Perry Davis & Son's "Pain Killer," may justly e styled the great medicine of the world, for there is no region of the globe into which it has not found its way, and none where it has not long been largely used and highly prized. Moreover, there is no clime to which it has not proved to be well adapted for the cure of a considerable variety of diseases; it is speedy and safe remedy for burns, scalds, cuts, bruises, wounds and various other injuries, as well

HALL'S

alone. We can assure our old patrons that it is kept fully up to its high standard, and to those who have never used it we can confidently say, that it is the only reliable and perfected preparation to restore GRAV OR FADED HAIR to its youthful color, making it soft, lustrous, and silken; the scalp, by its use, becomes white and clean; it removes all eruptions and dandruff, and by its tonic properties prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use the hair grows thicker and stronger. In baldness it restores the capillary glands to their normal vigor, and will create a new growth except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair that splendid glossy appearance so much admired by all. A. A. Hayes, M. D., State Assayer of Mass., says, "the constituents are pure and carefully selected for excellent quality, and I consider it the BEST PREPARATION for its intended purposes." We publish a treatise on the hair, which we send free by mail upon application, which contains commenwe send free by mail upon appli-cation, which contains commendatory notices from clergymen, physicians, the press, and others. We have made the study of the hair and its diseases a specialty for years, and know that we make the most effective preparation for the restoration and the preserva-tion of the hair, extant, and so acknowledged by the best Medi-cal and Chemical Authority.

## Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable,

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

a neighboring meadow.

A strong desire arose in her heart to do something for God in order to testify her gratitude for so many favors. Falling upon her knees, she asked that he would show her how she could make her life acceptable to him, and that he would condescend to make her of some use in this pleasant world in which he had seen fit to place her. And I think that God heard and answered her prayer, for she grew up a thoughtful, conscientious woman, a blessing to all around her.-Christian Banner.

#### The Unreasonable Monkey.

You have, perhaps, seen the large, hard wooden cases in which Brazil-nuts grow .deal of trouble in getting at them. A gentleman travelling on the Amazon River, in Brathe stranger's motions, all the while pound- that ever graced the table. ing away at his nut. But it is not easy to do two things at once and do them both well, and so it happened that, Mr. Monkey's long

#### Influence of Childrens' Prayers.

should be done, Melancthon retired from the stir." council under great dejection of spirit. After a short time, he returned, his countenance beaming with confidence and joy: and when all were surprised at the change, he told them that he had just seen a sight which assured him of success. He had seen some little children engaged in prayer for the Reformation. Their mothers, who were assembled for the same purpose, had brought them together; and he was assured such prayers would be heard of God. Courage in the needful hour for the greatest work ever accomplished by uninspired men was thus breathed into the soul by children's prayers. Such prayers the church needs yet. Children, do you pray-not only for father and mother, for brother and sister, but also for the church of God and the world?

#### Putting On Christ.

Irish Sunday School, thus illustrated with matchless beauty and force the great doctrine of the new birth. The Superintendent ask-"just as if I should go to Jesus, and put not so good, he thinks, as potatoes. Him on like this shawl;" and she folded it around her up to her neck; "and when I've got it all around me, I am a new creature, be-

than for a man to hear the song of fools.

#### Agricultural.

Weeding Potatoes with Sheep.

It may not be known to farmers in general that it is a common practice in some of the potato growing districts to turn a flock of

This pasturing with sheep is very advanlight. Springing from the bed, she quickly tageous when the crop is a late planted one, raised the curtain that she might look upon so that the hoeing cannot be completed until the pleasant landscape. The soft green the haying or harvesting is finished. At the growing season it is the farmer's aim to keep down the grass and weeds, so that they may And the fine old elms, how gracefully they be covered by the cultivator and hoe, when these are used.

Pasturing with sheep will obtain this obheard as it tripped lightly over the stones in before the time of digging, when the size of the tops precludes cultivation. In this stage Susie stood for some time enjoying both the sheep are economical weeders. It is sights rnd sounds. "How beautiful!" said hardly necessary to mention that the feed she to herself. "How good God must be to thus given to the sheep makes a doubled promake such a pleasant world for us to live in ! fit, inasmuch as it costs absolutely nothing, I don't see how Eden could have been much while labor is saved and weeds prevented

> WHAT A MISSISSIPPI GIRL DID ON A FARM .- The following information is conveyed to us by a truthful and reliable gentleman, and should cause young men who complain of not being able to support themselves to blush all over their faces:

Miss Rebecca Cox, of Amite County, who graduated in June, 1867, returned home in January, 1868, hired a negro man, 70 years old, two of his daughters, and one boy, not old enough to plow. The net results of farming operations last year, paying expenses of place and hunds, were 8 banks of potatoes, 600 bushels of corn, and \$969 in eash from sale of cotton over expenses.

Now, will any young man say he can't make a living after this ?- Summit Times.

Among the many delicacies in the form of bread, which render the enjoyment of break-The monkeys are very fond of these rich, fast so acceptable, we know of none more desweet nuts, though they often have a good serving of notice than the one prepared according to the following recipe :

Take 6 cupsful of corn meal, 4 of wheat zil was once walking upon the shore, when flour, 2 cupstul of molasses, and 2 table he saw a large monkey industriously pound- spoonfuls of saleratus, mix the whole togeth- ent Radiator avoids the use and annoyance of ing a Brazil-nut case upon the end of a log er and knead it into dough; then make two drums, and is permanently attached to the heater. to break it. The monkey soon caught sight cakes; bake them as you would pone, for of Mr. E-, and being a monkey of an three-fourths of an hour, and you will have acquiring mind, I suppose he began to watch one of the most grateful descriptions of bread

The sunflower is very useful. Its leaves tail coming in the way, he brought down the soon become large enough to be used as a hard nut upon it with great violence, hurting covering for young cabbage and tomato it as much as you hurt your thumb when you plants. Its stem affords an excellent hop or To be sure, it was all his own fault, in not up and kept dry, it answers well for kindling starting up, he threw the nut with all his force at Mr. E———'s head, and ran away into the forest.

It is said to be an absorbent of malaria, and is often cultivated as a preventive of fevers near dwellings that occupy low fork, steel hoes and ahovels have entirely superceded the heavy and clumsy wrought iron ones,

A Maine man gives his method of treating made mostly of wood and cast iron. pens to them they fly into a rage with the baulky horses as follows: "Let me inform person nearest to them, even though the mis-fortune is all their own fault.—Standard the rein, that the way to cure baulky horses the Chipper Machines iron has been largely subthem rapidly round till they are giddy. Ayer's Cathartic Pills, For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally re-quired by everybody as a cathartic, nor was ever a catharitic, nor was everany before so universally adopted into use, in
every country and among
all classes, as this mild
but efficient purgative
Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any

son is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always — that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required.

dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints For **Dropsy** and **Dropsical Swellings** they For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and howels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive appearatus.

TING INK.—WE HAVE TRIED this country, and know whereof we speak in recom mending that manufactured at the Gray's Ferry Printing Works, Philadelphia, as superior to any in use. It is easily worked in all sorts of weatoer, is clear, clean and pretty, and in many ways far ahead of inks sold at higher prices. We are seconded in this recommendation by our pressman, in the correctness of whose judgement in matters per-

taining to the press-room we have unlimited confidence .- Pittsburg Daily Gazette. PRINTING INK .- We would direct attention to the advertisement of the Gray's Ferry Printing Ink Works in another column. They present a number of testimonials from news-papers, speaking in the highest terms of the ink manufactured by them. Specimens of their ink have been used in this establishment, and have given entire satisfaction.—

Daily Telegraph, Harrisburg, Pa.

GOOD PKINTING INK.—A very important requisite to the production of a well-printed newspaper is a suitable ink. In printing the Bucks County Intelligencer on a fast press, we have had to contend with a great many difficulties in obtaining ink that would give satisfaction. At present we are using an ink made especially for the Intelli-gencer by C. E. ROBINSON, corner of Gray's Ferry road and thirty third street, Philadelphia, which comes nearer the mark than any other we have met with. That this opinion is shared by other pub-lishers is shown by the following extracts: PRINTER'S INK-A GOOD ARTICLE.-The ink with which this issue of the Republican is printed is from the Gray's Ferry Printing Ink Norks of C. E. RCBINSON. It is clean, flows freely, and is of a good color. Our brother printers can judge of its quality y comparing it with ink from other manufactories —Delaware county

Republican.
TO PRINTERS.—We have been using for several weeks a very fine quality of ink, from the Gray's Ferry Manufactory of CHARLES E. ROBINSON, which our pressmen say is the best for cylinder press news work that they have used for a long ne. It is a clear black, and free from all kinds of sediment. Mr. Robinson is a practical ink manafacturer, liberal and courteous in all business ansactions, and s ac has recently had the misforture to be burned out we are the more free to recommend his in and himself to the patronage of all printers who desire a good article at very cheap ates .- Delaware Gezett.

One of our cotemporaries also recommends it as FINE PRINTING INK .- We have for some ime been using the news ink manufactured at the dray's Ferry Printing Ink Works, Philadelphia, by C. E. ROBINSON, and, as stated some weeks ago, have found it better adapted to our presses than any ink we have had in our office for ten years. It is not only a very excellent article of ink, but it is furnished at very reasonable prices. The Works also manufacture Black and Colored Print ng and Lithographic lnks, Varnishes, &c. address is Gray's Ferry road and Thirty third street—Hagerstown, Maryland, Herald.

We never recommend an article in these columns unless it really merits it, and to learn whether our own opinion of the ink the Tax Payer is now using coincided with our pressman's, we inquired his estimate. He replied, 'Good, very good," and as we never knew him to deviate from the truth, we inform our fellow printers that this was said of ROBINSON'S Philadelphia Printing Ink—Tax Paver, New York. We have recently been using for our newspaper

the ink manufactured at Gray's Ferry Printing Ink Works, by C. E. ROBINSON, and as it gives the best satisfaction, we cordially recommend it to our brethren of the press generally, -- The American Media, Pa. This week's edition of the News is printed with nk from Gray's Ferry Works, Philadelphia. The nk is all that could be desired, and we cheerfully recommend it to the craft.—Shippensburge News. The ink with which this issue of th Ti me is

printed is from the Gray's Ferry Printing Ink Works of C. E. ROBINSON. It is clear, works clean, and is of good color—F. Wells, Port Tobacco Times, Maryland.
GOOD INK.—One of the greatest sources of annovance in a printing office is bad ink. We have tried various makes, paying sometimes very high prices, and failing. We now use the ink manu-factured at Gray's Ferry Printing Ink Works by C. E. ROBINSON, and it gives satisfaction.

shall continue to use it, and recommend it to others of the craft with confidence —Jeffersonian, West Chester, Pa-Many of our offices have been in the habit of sending away for their inks We would call atention to the advertisement of the Gray's Ferry Printing Ink Works. We are using ink from the above factory, and find it entirely satisfactory in quality and price, and take pleasure in adding our testimony in its favor.—Philadelphia Evening

From Savannah (Ga.) News.

FINE PRINTING INK.—We take pleasure in calling the attention of printers to the advertisement of C. E. ROBINSON, Ink Manufacturer, Philadelphia. The Morning News is printed with ink from his manufactory. It is clean, well ground and of good color, and is sold at a very reasonable price. In fact it is the BEST INK for the price that we have ever used, and we cordially add our 7.50 endersement to those in the advertisement.

From Daily Transcript, Portsmouth, Va.
We are using Mr. C. E. ROBINSON'S Printing
Ink, and find all that is said of it in the numerous extracts above to be true.

From Wilmington, (N. C.) Morning Star.

PRINTING INK.—The ink we are now using on the Star is from the works of Mr. C. E. ROBIN-SON, Philadelphia. We are much pleased with it, considering it equal to any ink of the same class

[From the National Intelligencer, Washington, D. C. C. Good Printing Ink.—We are at present using printing ink manufactured by Mr C. E. Robinson,

Gazette | We publish in another place the recommenda tions of the printing ink manufactured by Mr. C. E. Robinson, at the Gray's Ferry Ink Works. We are using the ink from Mr. Robinson's works, and are pleased to add our approval of it to the many endorsements he has already received. The ink is of ex eleent quality, clear, and works freely. Buffalo Evening Post.

EXCELLENT NEWS INK .- We are now using in the

It is clear and clean, and flow freely, We can

printing of our Daily Post, News Ink from the works of C. E. Robinson, Esq., on Gray's Ferry Road & 33rd street, Philadelphia. It is of excellent quality, and we take preasure in recommend-From Daily Phenix, Columbia, S. C. PRINTING INK .- We commend to brother publishers the ink manufactured by Mr. C. E. Robinworks. The present issue of the Phænix is printed with ink from the factory, and shows for itself.
